Vol. 1

Thursday, March 8, 1951

THE RAYMOND LION

The bad blizzard on Monday was responsible for cancelling the regular supper and business meeting of the Lions Club. The boys could not get cars started or ambitions flagged—so we called it off. It will be made up for at a Ladies Night in the near future.

One of our new Lions, Mas Terakida has recently taken a wife and is now on an extended tour to see the world. I'll bet he only sees one little girl in it. We wish him and his bride all the success and happiness they deserve—we will expect something of an explanation when he gets back to Lions. He can expect something too!

March 5th to 10th is National Education week in Canada. Education is the greatest factor for good in any civilization. The educational system of a community or a nation has the future of that state as its responsibility. Their policies can raise the status of any people to the highest in the world—or they may shrink their responsibility and fail to contribute their share to mankind.

Education covers many fields—economic, cultural, religious, physical and many others. Most of us are quite willing for somebody else to do the job. Many parents look to some other organizations or groups to take full responsibility for the rearing and educating of their offspring. Most parents take very keen interest in our school or church programs. Many parents are not satisfied with the product our so-called educational systems turn out. They also feel helpless to correct the faults.

There is something you can do. Study existing conditions. Meet with neighbors and people who feel somewhat as you do. Join committees and organizations for study groups and action proceedings. If you think something is wrong, find a way to correct it by getting help and going to work!

One of our standing Activity Committees in Lions Clubs is the committee for Public Education. The Lions are interested in supporting existing educational facilities. We are desirous of finding means and methods of improving existing weaknesses. The Raymond Lions Club appreciates the Raymond School Board. We understand some of their problems and are anxious to help if we can.

Rulon Dahl is the Chairman of that committee in our Raymond Lions Club. We have a program already underway in connection with a Light Survey and Eye Testing in the two local schools. If you think the Lions Club can help in any Raymond educational project please contact Rulon.

We were very happy to have the members of the local School Board as our special guests at one of our recent supper meetings.

Jenny Card Passes In Calgary

Friends will be sorry to learn of the passing of Mrs. Grant Card (Jenny) in a Calgary hospital Wednesday, March 7th. Mrs. Card was a patient at the local hospital for a short time and was taken to Calgary a week ago. She was 49 years of age and died after a short illness.

She is survived by her husband, four daughters, Mrs. Betty Gruenwald, Mrs. Dolores Rutledge, Mrs. Peggy Martiniuk and Patricia Card, all of Edmonton, and one son, James of Raymond.

Funeral services will be conducted by Bishop J. O. Hicken from the Stake House on Sunday at 2:30 p.m. Christenson Bros. are funeral directors.

Rural Elect. Assn. Annual Meeting Held

The annual meeting of the Raymond Rural Electrification Association Ltd. was held on Tuesday afternoon in the Town Hall. In spite of the weather there was a good number of members present. The financial report showed the Association's affairs to be in good shape. A number of accounts are still outstanding but once these are in the Association will show a small surplus over what is now owing to Farm Electric Service.

In the election of officers Joe Keeler was elected to replace Ross Nilsson on the Board of Directors. Murray Holt was returned as Chairman with Doug Paxman as Vice-Chairman and Eldon Peterson as Secretary.

Application has been made by about 30 farmers of the south Raymond and OK district to come into the Association. A delegation was in Calgary last week to investigate the possibility of this move and from reports brought back this looks quite favorable.

Our phone number is 24.

Four Queens At Green and Gold Ball

Della Paxman and Norma Dahl of the First Ward and Geraldine Jones and Anita McBride of the Fourth Ward were crowned as Queens by their respective Bishops at the joint Green and Gold Ball held in the Opera House last Saturday night.

The girls, who were seated on hassocks on the green-covered, triple-tiered stage as the curtain was raised, were introduced by the Mutual Presidents Vi Meeks of the Fourth Ward and Lucille Evans of the First. After the coronation they were joined by their consorts, Grant Litchfield, Jimmy Heninger, Heber Jones and Gordon Cooper, and started off the dance with the Queens Waltz.

Mrs. Wilford Burrows played for the floor show which was three sets of Jr. Gleaners and Jr. M Men dancing "Nocturne". The evening was completed by dancing.

The Opera House was decorated in the official colors of the MIA—green and gold, and with lighting effects under the supervision of Rayo Woolf, made a beautiful setting for this important occasion.

Your Government

By Andy Snaddon

(This is the first of a series of articles by this noted political writer. We hope you find them interesting and educational.)

Gas export has been the major issue before the legislature of Alberta in its first week of debate. The government has recommended that more exploration will have to be done before permission to export natural gas from Alberta is granted.

CCF leader, Elmer Roper, Edmonton, first opposition speaker, commended the government stand and expressed the hope that it would not be changed without reference to the people. The CCF has opposed natural gas export on the grounds that if it is kept here the people of Alberta will benefit as industries would be established in the province rather than at the end of the pipeline. Mr. Roper noted that a celanese plant would be built at Edmonton, to make use of the natural gas, and implied that other industries could be expected to follow suit.

Liberal speakers took another stand. J. Harper Prowse, party leader and Hugh John MacDonald, Calgary, the other Liberal member, held that a "competent" economist should be appointed to study the overall effect of

(continued on page two)

H. E. Balfour, Director of School Administration is now in Southern Alberta and will meet with the local School Board in the near future. Mr. Balfour will be able to give more information of the possibilities of including the surrounding territory in the Raymond School District.

Mohawks Edge Jacks

Thursday evening, March 8th, the Union Jacks again played host to the California Mohawks. This was the last game of the year for the Jacks and they really put on a good show—as any of the fans in the fair-sized crowd will tell you. The Jacks, with the aid of some of the High School "A" boys, were able to play much faster ball as they had a bench full of reserves.

Jumping into the lead in the first minutes of the game, Zeihn's quintet battled furiously and by half-time were ten points up on Brick Swegle's boys with a score of 45 to 35.

After the breather the Mohawks settled down to work and steadily closed the gap. Finally, with only minutes to go, they tied the score and then went ahead 3 points. Al West was fouled twice and made both gift shots. Guarding increased but finally the Jacks made a basket, putting them in the lead. The Mohawks came right back with another counter and won the game.

L. West led the local gang with 16 points while Tomsic netted 20 for the Mohawks. The final score—79 to 78.

Raymond: Hicken 15; A. West 15; Zeihn 14; Rolison; Attwood 2; Gilchrist 1; L. West 16 B. Dahl; G. Salmon 6; G. Gough 6; R. Stevenson 3. Total 78.

California: Kramer 6; Walker 6; Keys 6; Colver 11; Stewart 10; Sellock 5; Villalobos 10; Tomsic 20; Duran 5. Total 79.

Jacks Bid Farewell to Zeihn

After the game the players were treated to a sumptuous dinner in honor of the Jacks. Coach Art Zeihn was presented with an individual trophy for playing on the International Championship team. The rest of the players will receive their trophies at a later date. Art plans on finishing the season with the Mohawks on their tour that will take them to Alaska and will then return home to Glendale, Cal.

Arlidge Hill, president of the RAAA thanked Art on behalf of the Jacks and the fans, for his wonderful contribution to Raymond's basketball and sportsmanship. Art then gave his impressions of Raymond, which by the way, were very favorable, and thanked the rest of the team and the executive of the RAAA for the support and interest he received.

In the last speech of the evening Coach Swegle handed out bouquets by saying that he was very favorably impressed with the team, the fans and the town in general.

A wonderful time was had by everyone in attendance.

Telephone number 24

Another local boy has joined the services of his country. Jerry Finch left this week for Medicine Hat where he took his "medical" preparatory to entering the RCAF. Aero Electrical Division. Before leaving for Aymer, Ontario, for his basic training Jerry visited with his sister-in-law, Mrs. Keith Finch in Moose Jaw.

In the recent elections in Brooks 316 or about 60% of the qualified electors voted. There were 8 nominees to fill four vacancies.

They Had a Gay Time

The 145th Quorum of Seventys and their partners enjoyed a banquet, program and dance on Monday evening in the Stake House. The Fourth Ward Relief Society catered and the Junior Gleaners served the delicious supper.

Mr. Hardy of Stirling was MC for the enjoyable program which consisted of songs by Myron Holmes, a Gazette by Kay Redd, jokes by Gerry Gibb and at the special request of the crowd Harry Fairbanks showed tap dance talent. Emma Dahl and Tommy Allen then took their places to play for the lively dance, made up mostly of mixers, which followed. A wonderful time was had by all.

Ramona Heggie Feted

Last Friday evening a Calling Show was tendered Ramona Heggie in the Legion Hall which was beautifully decorated in pink and white. Evelyn Heggie presided at the Guest Book and Dorothy Bowden, Gene Garner, Stella Stuart and Elaine Stevenson assisted the bride elect in receiving and arranging the many lovely gifts.

A lovely lunch, under the direction of Mary Thompson, of fruit salad and dairy sandwiches was served by Carol Heggie, Gale Peipgrass and Mary Snow to those calling to wish Ramona much happiness.

Just Penning Thanks

(Margaret Huszar)

Schoolteachers!

What does that word recall? You may see many faces when you think of that name, some hazy, others clear, and perhaps one dominates all the others. Or have you forgotten.

Just lean back, if you are reading this column (how could you stand it this far?) and take a trip with the younger generation into the unexplored, aloof, icy region known as the cerebellum or what have you that makes the teachers tick. In other words, this is the student's concept of his teachers.

In the lower grades the teacher is a lovely girl whom the children idolize. As they progress towards the completion of their education the children begin to take a different view of the slave-drivers—uh, teachers, pardon me. By the time these children reach their last years in high school, they have pretty well given the word "teacher" a definition. They have also analyzed the specimen until they decide that they know what makes them work (or rather, what makes them make us work).

There are, of course, different classes of teachers, far too many to enumerate here. They are all united toward the same purpose, however, that of seeing how they can make their pay last until next month. Their favorite hobby is throwing—words, paper, ink, anything.

Seriously, teachers are indispensable. They train young minds in citizenship and all the arts of co-operation and democracy. They make us think. It hurts, but it helps in the end. There are some teachers who take advantage of their position and abuse the privilege that they enjoy (it is a privilege, believe it or not, to mold the leaders of tomorrow). We, as students, could show our appreciation, but we are human. Ten years from now we may be different. Thank you, teachers, anyway.

Elections Friday! Tune in again next week for your favorite (?) reporter on up to the minute news from Station RRS. Topic elections!

Winners at the Bonspiel

The Wilde Trophy, emblematic of curling supremacy in the Raymond Bonspiel again found its way to Taber in the care and safe-keeping of the Meyers Rink. This is the second time in as many years that Mr. Meyers and Company have toted off this trophy. The Bond Rink from Lethbridge, Watson from Picture Butte and the Gil Evans Rink took the other three sets of prizes in the First Event.

Lincoln Wood and associates came out on top of the Second Event struggling to win the Garagemen's Trophy and accompanying prizes. Granberg of Warner, Martin of Lethbridge and Jack Evans were the other winners in this event.

There was no Trophy for the Third Event but Jensen of Taber, Loran Larson, O'Donnell of Warner and Johnson of Magrath were all happy with the valuable prizes their wins brought them.

It couldn't be by design (could it) that at least one local rink was included as winners in each Event. From what little we have seen of curling, we know that you have to be either good or very, very lucky to come up a winner, so to these good curlers we offer our congratulations.

Thursday night the Ladies Curling Club did the honors at the Legion Hall where they, with Mrs. Eva Ralph in charge, served a delicious supper to over 100 curlers.

This, along with the fine curling facilities at the local rink and the good sportsmanship which prevailed throughout the competition made it the fine bonspiel that it was.

The Ladies Curling Club take over for their two day Bonspiel on Friday and Saturday.

We May Have A Chamber of Commerce

Twelve of the local business men met in the Club Cafe at noon today to hear a talk on Chamber of Commerce activities by Don Marlett, field representative of the Canadian Chamber of Commerce for western Canada, and to discuss the possibilities of forming a local Chamber of Commerce.

Raymond has been without such a body for several years and the general feeling of the men assembled was that if the co-operation of the local businessmen and the farmers of the surrounding area could be had a Chamber of Commerce should be formed as soon as possible.

L. A. Wood was asked to make the necessary arrangements for calling a public meeting to discuss the question further and to arrange for speakers on the subject.

The Home and School meeting was held on February 28th in the Town Hall. February meetings are set aside by the Association to honor the founders of the movement, National, Provincial and Local.

One of the founders has this to say of the Home and School: "It is the most inclusive organization I know of in Canada—might we not truthfully say, in the world? It recognizes no social, economic, political, professional racial or religious barrier—the one and only passport for membership being a 'concern' for children and youth."

Since the local Association was organized two years ago Mrs. Beth Galbraith and Mrs. Elsie Smith have filled the office of President with that position now being filled by Mrs. Dorothy Dahl.

Mike Rebalikin returned this afternoon from Detroit, Mich., where he attended a four-week tune-up course.

Capitol Theatre News

The screen's newest and most vigorous film is now playing at the Capitol. It is "The Great Missouri Raid" with Wendell Corey, McDonald Carey and Ellen Drew (the gal who paid Raymond a visit last summer and was the guest of Mrs. Knight). It is a virile story of the most famous of train robberies, and is based on facts surrounding this incident.

Next Tuesday and Wednesday will bring a most wonderful show with a superior cast. This is the story in brief and we urge you to see this poignant and timely motion picture:

Margaret Sullivan and her husband, Wendell Corey, are delighted at the prospect of having their second child. However, the family doctor, John McIntyre, tells her that she no only cannot have another child, but that she has cancer and has only ten months to live. She keeps the secret from her husband and their daughter, Natalie Wood. Noticing that her husband has taken an interest in Viveca Lindfors, his co-worker, Margaret first contemplates suicide but later she decides to groom Viveca to take her place in her home. When Corey learns the truth about his wife, he is broken-hearted and takes her on a second honeymoon in Mexico. Later, Viveca, who is taking care of the child learns that Margaret died in Mexico.

The whole world likes adventure into the land of make-believe, and the new Tarzan picture will satisfy you with its thrill-packed story. This is playing next Thursday with a matinee on Wednesday at 4:15. See Lex Barker in "Tarzan and the Slave Girl".

Serving one of Canada's richest irrigated mixed farming districts.

After a pair of six page papers the two weeks previous, it was a relief to get back down to our four-pager again last week. Partly because it was just exactly a year since Roxie came down here to live and partly because we figured we had earned a holiday, we worked pretty hard all week on the paper and to catch up on most jobs so that we could have the week-end off to visit in Calgary.

By late afternoon Vede and I had the paper printed so we left him (he's a good kid) to address and fold the papers and we hid ourselves off to the city in Dad's Plymouth. We left our house at 6:30 and were in Calgary about four hours later—just in time to be too late to catch any of the shows.

After driving up and down eighth Avenue a couple of dozen times just getting re-used to the bright lights, we went up on the hill to the Waltons (thems my in-laws—sister and brother that is) where we found a bed and lots of hospitality to go with it.

Saturday morning brought that rare treat that isn't even seen in the movies very often any more—breakfast in bed. Roxie's sister really pampered us. Oh what a life! The toast, eggs and everything were done to perfection. At last we must have had the feeling only the filthy-rich are supposed to know.

Saturday is a day of leisure, for printers in Calgary so we drove around to see a couple of my old work mates and received some much valued advice. Window shopping and a gab-fest with some of the dear sweet girl's friends on 8th Avenue tired this boy out so we drove up to see the new Red Cross Children's Hospital. It is really an imposing sight from the outside. The inside we know nothing of because we arrived just five minutes after they locked the door.

Next stop was down on 9th Avenue East where our friends Mr. and Mrs. Fox have their Chick Hatchery (order your Fox-hatched chicks now—for their address see page four). We were disappointed at finding Mrs. Fox away but had a nice visit with Mr. F. He showed us through the plant—something we wanted to do in the year we lived in their house but didn't get around to.

A visit to Calgary is never complete without a feed in Chinatown so that was our next port of call. On the west side of Centre Street in Chinatown, a new shop dealing in Chinese arts and crafts has been opened under the name of Linda Mae's (wonder if we can charge for that plug). We planned on spending five minutes there but found it so fascinating that most of an hour whisked by before we found the exit.

By the time (I would give two-bits to know how many people have found this interesting enough to read thus far—to those who have—thank you kindly) we were late for the early show at the Capitol so we drove back to Waltons where we received an introduction to the game "Clue". Finding that we were not very good detectives didn't take long so we left to see the show "I'll Climb the Highest Mountain" which we found very interesting (When Mr. B. brings it here, plan to see it—you won't regret it).

The thing we wanted least—snow—greeted us as we left the theatre. It dampened our spirits slightly but did not spoil our fun.

Sunday morning rushed by with a whisper of a housecoat and before we knew it leaving time had arrived. The snow was snowing and the wind was blowing but we decided to weather the storm and get down to sunny Southern Alberta as fast as we could. The roads weren't bad but the blowing snow slowed these pilgrims' progress but we finally reached Lethbridge where we took on nourishment before taking a tow-truck drivers advice and left for Magarath—the fellow told us not to try to come home because of the drifts—he didn't know much but neither did we.

The storm had prevented my sister from going back to the farm and she put her car in Dad's garage 'cause they thought we were too sensible a pair to brave the blizzard and drive home, but we fooled them. Putting the Plymouth right close to the house didn't keep it warm enough so Monday morning it had to be towed up to brother Jay's garage (Garden City Motors—plug) to thaw out.

By this time we had decided to give the bus company some of our business so we came back on the three o'clock run from Magarath. The cold weather had not done too much good to our water pipes and despite the valiant efforts of our friends, they were frozen. They are now running free and easy so we are happy.

We are also happy to be back home. The trip was thoroughly enjoyable—visiting with that little Swedish lady called Mrs. Quist was very pleasurable as was seeing some of our old friends. Next time we go away for a week-end we are ordering fair and warmer weather though.

Dr. Burns Larson accompanied his mother, Mrs. J. L. Larson and Mrs. John Gibb, from Magarath, home from Edmonton last week-end. He returned to Edmonton on Monday.

Your gift means life

\$5,000,000 is needed to support Red Cross services for Disaster, Veterans, Free Blood Transfusions, Outpost Hospitals and Civil Defence Training.

To countless victims of accident on the highways, in the fields and factories, your gift to support the Red Cross Free Blood Transfusion Service is the gift of life itself. For many Canadian hospitals depend on the Red Cross for their supply of wonder-working plasma.

Today, too, civil defence plans in towns and cities coast to coast give new emphasis to the vital need for ample reserves of blood plasma. Give generously . . . the life you help to save tomorrow may be your own!

YOUR GOVERNMENT

(Continued from page 1)

export on the economy. The Liberals expressed the fear that the government had already decided on permitting export at an early date. They also want a study of Alberta's fuel and water resources for effective utilization in irrigation and rural electrification. Their resolutions will come before the house later.

Mr. Prowse used Alberta's coal industry as an argument against natural gas export. He said it meant 12 to 15 million dollars in revenue to the province each year in addition to 8 to 10 million dollars in wages to miners, who might be put out of work. The coal was for the most part Alberta owned, while gas export would give \$375,000 a year in royalties to the government but was most likely to benefit foreign investors.

At the time of writing Hon. N. E. Tanner has not replied to the house to these criticisms. In due course he will. Outside the legislature he has ob-

served that export of natural gas would encourage industry in Alberta by making available natural gas and chemical raw materials, economically. He reiterated the government would insist on sufficient reserves for Alberta in the foreseeable future (Liberals had alleged that a 50 year reserve for Alberta was being forgotten) and that many rural communities would get natural gas, because of export, which they would not get for some time otherwise.

Agriculture Minister David Ure had several points of interest in his review of his department. The St. Mary reservoir, south of Lethbridge, would be ready for the spring run-off and water from the Big Bend project near Taber would be on the land this year. He recommended that farmers would do well to produce more of all kinds of beef. And he predicted 1,750,000 trees would be planted this year, 5,000,000 more than last.

W. R. Cornish, Vermilion, protested the sale of margarine as being ruinous to Alberta dairy farmers. W. F.

Gilliland, Peace River, called the government's brush burning regulations impractical and asked the forestry department to show his people how brush could be burned with at least two feet of snow on the ground, prior to the final date set, April 1. Mrs. C. R. Wood, Stony Plain, asked a bounty for farmers on coyotes, and improved correction facilities for juvenile delinquents. Peter Chaba, Ded-water, expressed his view that Alberta needed a strong farmers' union. He protested the fact that F. E. Maricle, director of the F. U. A. refused to resign in spite of other directors resigning because Mr. Maricle was considered communist inclined, because of his attendance at the Warsaw Peace Council meetings. L. C. Halmrast, Warner, explained irrigation costs and why he felt they were worth it to the government, as well as praising rural electrification co-op financial help by the government. Norman Willmore, Edson, urged federal assistance for building a highway through the Yellowhead Pass.

The Psychology Club met at the home of Mrs. Beth Galbraith Wednesday evening to hear Kay Rolfson capably present the lesson on "Six Year Olds". After some discussion a delicious lunch was served by the hostess.

Special guests were Marie Smith, Alma Mendenhall, Idale Kenney, and Nita Mendenhall.

Kathleen Taylor arrived home on Tuesday for a few days visit with her family before her forthcoming marriage.

TAKE YOUR PLACE WITH MEN LIKE THESE...

Soldiers of the Sky

Paratroopers of the Infantry Corps...

Yes! There is a place in the Canadian Army Active Force for young men able and willing to train as paratroopers in the Royal Canadian Infantry Corps. Alert, quick-thinking, physically fit men are needed now to become members of highly trained teams.

To be a paratrooper, you must have high physical stamina, an eye for adventure, and the ability to think and act quickly. If you have these qualities, then this is your opportunity to join this proud company of men—the soldiers of the sky.

Act today—now, when Canada needs you. Report immediately for active duty and start your training as a paratrooper.

TO ENLIST YOU MUST:

1. Be a Canadian citizen or British subject.
2. Be between 17 and 30 years of age.
3. Be single.
4. Meet Army test requirements.
5. Volunteer for service anywhere.

FROM THE CEMETERY BOARD

The Temple Hill Cemetery Board wishes to thank the merchants of Raymond who filled the "Treasure Chest" which was purchased by the Board and will be drawn for at the Opera House on Saturday, March 31, at the Variety Concert "LEST WE FORGET".

If we are to carry on the work of making our local cemetery a place of beauty instead of a weed-bed with tall grass blowing in the high winds that sweep over the graves of our loved ones we must have the full support of each and every one of you who have a friend or loved one in the City of the Dead.

These merchants have shown their willingness to assist us and we wish to thank each and every one of them.

Henry Piegrass was a business visitor here from Cardston for a few days last week.

School Inspector Ted Hinman is in town this week visiting the schools.

Word has been received that Kay Cook will leave the Australian mission field on the 24th of March. He will fly in the world's largest plane as far as the Hawaiian Islands and after a short stop over there he will continue his journey by boat.

Mr. and Mrs. R. Hatley announce the engagement of their youngest daughter, Marie, to Herbert Still, eldest son of Mr. and Mrs. Bert Still of Raymond. No date has been set for the wedding.

A number of people from here took in the Ice Carnival in Lethbridge last week-end.

Protect your herds! One injection of

BOVIGEN will cut your losses from Blackleg, Malignant Edema and Shipping Fever

Now... you can get safe, dependable, low cost protection against Blackleg, Malignant Edema and Shipping Fever. And... instead of having to vaccinate separately for each disease... you can do the complete job with one injection of Bovigen... the "triple antigen" that gives three-way protection.

Don't Wait... Vaccinate
If you wait until your animals show signs of Blackleg or Malignant Edema, you may be too late to do anything about it. Usually, an animal infected with either of these diseases will die in 24 to 36 hours. So... the thing to do is check disease before it starts. And, the way to do it is... vaccinate with Bovigen. Remember... Bovigen is a preventative. You get the full benefits... cut costly losses... when you use it before disease starts.

Only Costs a Little to be Safe
When you consider that one dose of Bovigen protects a

against three diseases... the cost per dose is surprisingly low. Then, too, you save time in injecting... one operation instead of three.

Simple and easy to administer... all you do is follow the instructions. They're in every package. Bovigen comes in three handy sized bottles... 5, 10 or 25 doses per bottle. Get the size that suits your herd.

Bovigen is supplied by the VETERINARY DIVISION
SHARP & DOHME
(Canada) Ltd., Toronto 13, Ont.

BUY BOVIGEN FROM YOUR NEAREST DRUG STORE
